

Trash logged on PSU campus

72% of logged trash on campus was not in sight of a trash can
Students were 28% less likely to dispose of litter when it was not near a receptacle.

We suggest:

- More trash cans along Draper Ave, Beaumont Hall, the North side of Redcay, the West side of the Feinberg Library, and near the Hudson access bridge
- Signs to discourage littering
- Receptacles specifically for plastic recycling as this was the most common form of litter
