

July 23, 2013

Dr. Pelttari,

I have made three changes to the first submission of my thesis "Using Reader's Theatre in Science and the Effects on Students' Content Knowledge, Fluency, and Comprehension" that you requested.

The first change that was requested and has been made was to change each page so the page number only appears once per page.

The second set of changes that were made to the references listed at the end of the thesis. I changed some of the formatting to this part of the document including italicized words, lower case letters, and correcting some of the titles of the references.

The last change made to the original submission was to delete the appendices from the document since they are not mentioned within the text.

Sincerely,

James Guzielek
