Dear Benjamin Harper III,

The College at Brockport created [Digital Commons @Brockport](#) in 2012, to feature the scholarly works of the Brockport community. The [Education department](#) is an active contributor, with thesis and capstone project collections. We recently became aware of your capstone project from 2004, Motivating Urban Middle School Math Students While Considering their Attitudes and Perceptions, and would like your permission to add it to our growing collection. May I have your permission to digitize and add yours to this collection? I would then send you the link, and you would then receive monthly reports of how many downloads your thesis has received. If you are interested, please let me know what email address you would like associated with the thesis – where you would like to receive the reports.

Please feel free to contact me with any questions.

Best regards,

Kim L Myers
