Question
Do North Country students in New York and Vermont reflect national trends with respect to enrollment in, and careers related to, natural resources and the environment?

Methods
- Survey Questions created and validated June 2021
- Data collected from Google Form Surveys January 2022
- Additional questions added for Summer 2022 April 2022
- Survey taken by 9 - 12 UB students at PSU & UVM July 2021
- Data analyzed and figures created in R April 2022
- Summer 2022 Surveys created May 2022
- Received IRB approval Early 2021

Results

Next steps
Summer 2022 research will reflect the same question structure and focus on emerging patterns pre and post watershed science education at Upward Bound.
